Annual Financial Report

30 June 2012

Empire Resources Limited

Directors' Report

Directors' Report

Your directors submit their report on Empire Resources Limited (the "Company") and its controlled entity (the "Group") for the financial year ended 30 June 2012.

Directors

The company's directors in office during the financial period and until the date of this report are as follows. Directors were in office for the entire period unless otherwise stated.

Thomas Revy - Chairman (Non-Executive) – BAppSc. Grad Dip Bus.

Mr Revy is a mining professional with in excess of 28 years experience in the mining industry to date including operations, process design and commissioning, technical and general management, business development, project and company evaluation and corporate management. Countries where extensive work has been undertaken include Australia, PNG, Southern and Central Africa, Central and South America and China.

David Sargeant - Managing Director - BSc. MAusIMM

Mr Sargeant – who holds a Bachelor of Science degree in economic geology from the University of Sydney – has more than 40 years experience as a geologist, consultant and company director. As such, he has been involved in numerous mineral exploration, ore deposit evaluation and mining development projects and is a member of AusIMM and the Geological Society of Australia.

During his career, Mr Sargeant has held a range of senior positions, including that of senior geologist with Newmont Pty Ltd and senior supervisory geologist with Esso Australia Ltd at the time of the Harbour Lights Gold Mine discovery and development. Further, Mr Sargeant was the first chief geologist at Telfer Gold Mine during exploration, development and production at that project. In addition, he was exploration manager for the Adelaide Petroleum NL group of companies, manager of resources development for Sabminco NL and a technical director of Western Reefs Limited during the period in which that company became a successful producer at the Dalgaranga Gold Project.

Mr Sargeant has been a director of the following listed companies during the past three years.

Company	Position	Appointed
FYI Resources Ltd	Non-executive Director	30/11/2009

Adrian Jessup - Executive Director - BSc. MAusIMM

Mr Jessup also holds a Bachelor of Science degree (with honours) in economic geology from the University of Sydney and has more than 40 years continuous experience as a geologist, company director and consultant involved in mineral exploration, ore deposit evaluation and mining. He is a member of AusIMM, the Geological Society of Australia and the Australian Institute of Geoscientists.

For the last 16 years, Mr Jessup has operated a geological consulting company. During that time, he was a founding director of Sylvania Resources Limited and remained on the board for two years. Prior to that, Mr Jessup was managing director of Giralia Resources NL for eight years, from the company's inception in 1987. Previously, he had worked for AMAX Exploration Inc., as a senior geologist and as regional manager in charge of that company's mineral exploration in Western Australia.

Mr Jessup has been a director of the following listed companies during the past three years.

Company	Position	Appointed
FYI Resources Ltd	Non-executive Director	30/11/2009

Management

Simon Storm - Company Secretary – BCom. BCompt(Hons). CA, FCIS

Mr Storm is a Chartered Accountant with over 28 years of Australian and international experience in the accounting profession and commerce. He commenced his career with Deloitte Haskins & Sells in Africa then London before joining Price Waterhouse in Perth.

He has held various senior finance and/or company secretarial roles with listed and unlisted entities in the banking, resources, construction, telecommunications and property development industries. In the last 10 years he has

Empire Resources Limited

Directors' Report

provided consulting services covering accounting, financial and company secretarial matters to various companies in these sectors.

David Ross – Exploration Manager – BSc(Hons). MSc. MAusIMM

Mr Ross holds a Bachelor of Science degree (with honours) in geology from Aberdeen University, Scotland and a Master of Science degree in economic geology from McMaster University in Canada. He is a member of the AusIMM, the Geological Society of Australia and the Australian Institute of Geoscientists.

With over 25 years experience as an exploration geologist in Western Australia his career has seen him involved with numerous mineral exploration, ore deposit evaluation and mine development projects for both gold and base metals. He has held senior geologist positions with Brunswick NL and Giralia Resources and was geological superintendent for Australian Resources at the Gidgee Gold Mine. Most recently he held the position of chief geologist with De Grey Mining Ltd where he was instrumental in the discovery of the Orchard Well VMS deposits.

Principal Activities

During the period the principal activities of the Company consisted of mineral exploration and evaluation of properties in Australia. There has been no significant change in these activities during the financial period.

Dividends

No dividends have been paid during the period and no dividends have been recommended by the directors.

Result for the Financial Period

Loss from ordinary activities after provision for income tax was \$3,027,693 (2011: \$1,907,860).

Review of Operations

During the year, the Company continued exploration activities at its various exploration projects:

Highlights 2011 – 2012

- Strong progress on multiple fronts as the company builds on its portfolio of five copper-gold projects in Western Australia
- Yuinmery and Penny's Find projects expected to create substantial value for our shareholders in the short term

Yuinmery

The flagship project for Empire Resources is the 100 percent owned, multi-mineral Yuinmery project, located 475 kilometres northeast of Perth in Western Australia.

The Yuinmery project sits in the base metal rich, but underexplored Youanmi Greenstone Belt with the principal target being volcanogenic massive sulphide (VMS) deposits. Elsewhere in the world, VMS deposits typically occur as a cluster of individual prospects which are often mined to great depths. Similar VMS deposits are found at the Golden Grove mine to the west and Jaguar mine to the east underlining the potential of Yuinmery.

The excitement of Yuinmery springs from the calibre of intersections, with a string of high-grade copper gold results at two of the projects most advanced prospects – Just Desserts and A Zone.

Significant high grade copper-gold and zinc intersections at the A Zone prospect remain open at depth. Intercepts include

- 6m @ 3.0% Cu, 1.7g/t Au including 3m @ 4.0% Cu, 3.3g/t Au
- 6m @ 2.2% Cu, 1.2g/t Au including 3m @ 3.0% Cu, 2.0g/t Au
- 5m @ 2.8% Cu within 10m @ 1.8% Cu
- 3m @ 8.2% Zn within 8m @ 4.0% Zn

Confidence in Yuinmery continues to grow with the project on track to outline a second resource estimate at A Zone.

Penny's Find

The first discovery for the company in 2007 was Penny's Find, a near surface, high grade gold deposit situated in the Eastern Goldfields of Western Australia, within close proximity to the gold mining centres of Kalgoorlie and Kanowna Belle Mine.

Initial drilling at Penny's Find outlined a JORC compliant resource of 314,000 tonnes at 5.2 g/t gold to 150 metres and open at depth. Drilling results both confirmed the high grade nature of the project and underlined its potential.

Empire Resources Limited Directors' Report

In February 2012 Empire Resources revisited its staged sale agreement with 40 percent equity owner, unlisted company Brimstone Resources Ltd. The new agreement comprises either –

- A total cash payment by Brimstone of \$3 million by June 2013 for a 100 percent interest in the project, together with royalty payments on any gold produced in excess of 52,500 oz. This includes a non-refundable payment of \$500,000 already made to empire for the initial 40 percent interest in the project.
- or
- Brimstone may increase its project interest to 51 percent through the expenditure of \$750,000 by 30 September 2012, with further expenditure of an additional \$750,000 by June 2013 to increase its interest to 75 percent. In either case, Empire's mining establishment costs would be carried and repayable from production. The renegotiated terms gives Brimstone additional time to devote to the project, while Empire will gain \$3 million for the full sale of the project, or an additional 25–49 percent interest in the event of a partial sale.

Project economics at the Penny's Find (60 percent owned) project have been enhanced by recent high grade gold intersections and a possible new hanging wall lode

- 6m @ 13.34g/t Au from 113m, including 4m @ 19.43g/t Au
- 2m @ 12.95g/t Au from 101m, within 8m @ 4.02g/t Au
- 3m @ 14.42g/t Au from 143m to EOH

The current resource has been defined to a vertical depth of 150m and remains open at depth. The Penny's Find Mining Lease is granted to 2033.

Wynne

- Grassroots exploration success at the Wynne project with oxide copper mineralisation discovered

Damperwah

- Copper sulphide mineralisation discovered at the Damperwah project

Corporate

- company raised \$1,230,000 in capital, before costs, through a share placement during September 2011, with the issue of 15 million shares at \$0.082
- conducted a share purchase plan and raised \$387,500 through the issue of 7.75 million shares at \$0.05.

Significant Changes in State of Affairs

In the opinion of the Directors there were no other significant changes in the state of affairs of the Company.

Remuneration Report (Audited)

This report details the amount and nature of remuneration of each director of the Company and other key management personnel.

Remuneration Policy

The principles used to determine the nature and amount of remuneration are applied through a remuneration policy which ensures the remuneration package properly reflects the person's duties and responsibilities and that the remuneration is competitive in attracting, retaining and motivating people of the highest quality.

The remuneration policy, setting the terms and conditions for the executive directors has been developed by the board after seeking professional advice and taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

The remuneration policy is to provide a fixed remuneration component. The board believes that this remuneration policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning Directors' objectives with shareholder and businesses objectives.

The remuneration framework has regard to shareholders' interests in the following ways:

- Focuses on sustained growth as well as focusing the directors on key non-financial drivers of value, and
- Attracts and retains high calibre directors.

The remuneration framework has regard to directors' interests in the following ways:

- Rewards capability and experience,
- Reflects competitive reward for contributions to shareholder growth,

Empire Resources Limited Directors' Report

- Provides a clear structure for earning rewards, and
- Provides recognition for contribution.

Non-executive directors

The board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the non-executive director and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to directors is subject to approval by shareholders at a General Meeting. Fees for non-executive directors are not linked to the performance of the Group. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and may receive options.

The Directors have resolved that non-executive director's fees will be \$30,000 per annum for the Chairman, inclusive of statutory superannuation contributions. Shareholders have approved aggregate remuneration for all non-executive directors at an amount of \$100,000 per annum. Where applicable, superannuation contributions of 9% are paid on these fees as required by law.

Share-based compensation

To ensure that the Company has appropriate mechanisms to continue to attract and retain the services of Directors and Employees of a high calibre, the Company has established the Empire Resources Limited Share Plan ("SP") and the Empire Resources Option Plan.

The Directors consider the plans are an appropriate method to:

- a) reward Directors and Employees for their past performance;
- b) provide long-term incentives to participate in the Company's future growth;
- c) motivate Directors and Employees and generate loyalty in Employees; and
- d) assist to retain the services of valuable Employees.

The value attributed to the share based compensation for the year is as follows:

	Year granted	Vested %	Forfeited %	Financial years in which shares/options may vest	Total value of grant vested \$	Minimum total value of grant yet to vest \$	Maximum total value of grant yet to vest \$
Directors							
Mr T Revy	2010	-	-	2010-13	-	7,500	7,500
	2011	-	-	2012	-	13,500	13,500
Mr D Sargeant	2010	-	-	2010-13	-	7,500	7,500
	2011	-	-	2012	-	13,500	13,500
Mr A Jessup	2010	-	-	2010-13	-	7,500	7,500
	2011	-	-	2012	-	13,500	13,500
Specified Executives							
Mr S Storm	2010	-	-	2010-13	-	7,500	7,500
	2011	-	-	2012	-	10,000	10,000

**Empire Resources Limited
Directors' Report**

	A Remuneration consisting of shares	B Value at issue date \$	C Value at exercise date \$	D Value at lapse date \$	E Total of columns B-D \$
Directors					
Mr T Revy	35%	13,500	-	-	13,500
Mr D Sargeant	7%	13,500	-	-	13,500
Mr A Jessup	7%	13,500	-	-	13,500
Specified Executives					
Mr S Storm	23%	10,000	-	-	10,000

- A = The percentage of the value of remuneration consisting of shares, based on the value of shares expensed during the current year.
- B = The value at issue date calculated in accordance with AASB 2 Share-based Payment of shares issued during the year as part of remuneration.
- C = The value at exercise date of shares that were issued as part of remuneration and were exercised during the year, being the intrinsic value of the shares at that date.
- D = The value at lapse date of shares that were issued as part of remuneration and that lapsed during the year. Lapsed shares refer to shares that vested but expired due to the term of the loan expiring.

No shares were issued during the year upon the exercise of options.

Executives

Executive Directors receive either a salary plus superannuation guarantee contributions as required by law, currently set at 9%, or provide their services via a consultancy arrangement. Directors do not receive any retirement benefits. Individuals may, however, choose to sacrifice part of their salary to increase payments towards superannuation. Options are not issued as part of remuneration for long term incentives.

All remuneration paid to directors and executives is valued at cost to the Company and expensed.

Empire Resources Limited Directors' Report

Compensation of Key Management Personnel for the year ended 30 June 2012.

Empire Resources Limited Directors' Report

Employment contracts

– Mr D Sargeant

By agreement dated 24 October 2009, the Company and Kirkdale Holdings Pty Ltd (ACN 009 096 388) ('Kirkdale') agreed the terms and conditions under which Kirkdale would provide the services of Mr Sargeant as Managing Director of the Company.

The agreement has:

- (a) a term of three years;
- (b) requires the payment to Kirkdale of a fee of \$15,000 (GST excl) per month (increasing by 10% each year) and reimbursement of expenses;
- (c) provisions requiring the payment of a termination benefit of 50% of the amount due on termination of the agreement.

– Mr A Jessup

By agreement dated 24 October 2009, the Company and Murilla Exploration Pty Ltd (ACN 068 277 190) ('Murilla') agreed the terms and conditions under which Murilla would provide the services of Mr Jessup as an executive officer of the Company.

The agreement has:

- (a) a term of three years;
- (b) requires the payment to Murilla of a fee of \$15,000 (GST excl) per month (increasing by 10% each year) and reimbursement of expenses;
- (c) provisions requiring the payment of a termination benefit of 50% of the amount due on termination of the agreement.

Directors may be paid additional fees for special duties or services outside the scope of the ordinary duties of a Director. Directors will also be reimbursed for all reasonable expenses incurred in the course of their duties.

End of Remuneration Report.

Share Options

At the date of this report unissued ordinary shares of the Company under option are:

Grant Date	Date of Expiry	Exercise Price \$	Number under Option
02-Jun-10	02-Jun-13	0.15	8,227,729
25-Jun-10	25-Jun-13	0.14	2,700,000
09-Aug-11	09-Aug-14	0.09	1,500,000
28-Nov-11	28-Nov-14	0.10	1,500,000
			13,927,729

Directors' Interest

The relevant interest of each director in the shares and options over shares issued by the Company at the date of this report is as follows:

Director	Number of Ordinary Shares		Number of Options	
	Direct	Indirect	Direct	Indirect
Mr T Revy	350,000	360,000	1,000,000	-
Mr D Sargeant	-	6,400,000	-	1,000,000
Mr A Jessup	922,222	1,645,333	500,000	500,000

Company Performance

Comments on performance are set out in the review of operations.

Empire Resources Limited

Directors' Report

Significant Changes in the State of Affairs

There were no other significant changes in the state of affairs of the Company other than those noted in the review of operations.

Likely Developments and Expected Results

Disclosure of likely developments in the operations of the Company and the expected results of those operations in future financial years, and any further information, has not been included in this report because, in the reasonable opinion of the Directors to do so would be likely to prejudice the business activities of the Company.

Environmental Regulation

The Company's operations were subject to environmental regulations under both Commonwealth and State legislation in relation to its exploration activities.

The directors are not aware of any breaches during the period covered by this report.

Meetings of Directors

The following table sets out the number of meetings of the Company's directors held during the period ended 30 June 2012 and the number of meetings attended by each director.

Director	Directors' Meetings	
	A	B
Mr Thomas Revy	6	6
Mr David Sargeant	6	6
Mr Adrian Jessup	6	6

A - meetings attended

B - meetings held whilst a director

As at the date of this report the Company has not formed any committees as the directors consider that at present the size of the Company does not warrant such. Audit, corporate governance, director nomination and remuneration matters are all handled by the full board.

Proceedings on Behalf of the Company

No person has applied to the Court under Section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of the proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under Section 237 of the Corporations Act 2001.

Indemnification and Insurance of Directors and Officers

Indemnification

The Company has agreed to indemnify current directors and officers and past directors and officers against all liabilities to another person (other than the Company or a related body corporate), including legal expenses that may arise from their position as directors and officers of the Company and its controlled entity, except where the liability arises out of conduct involving a lack of good faith. The agreement stipulates that the Company will meet the full amount of any such liabilities, including costs and expenses.

Insurance

The directors have not included details of the amount of the premium paid in respect of the directors' and officers' liability insurance contracts, as such disclosure is prohibited under the terms of the contract.

Events subsequent to reporting date

No matter or circumstance has arisen, since the end of the financial year, which significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial years.

Non-audit Services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are important.

Empire Resources Limited Directors' Report

Details of the amounts paid or payable to the auditor (HLB Mann Judd) for audit and non-audit services provided during the year are set out below.

During the period, the following fees were paid or payable for services provided by the auditors of the parent entity HLB Mann Judd, its related practices and non-related audit firms:

Cash at the beginning of the financial year		1,781,147	595,674
Cash at the end of the financial year	6	640,807	1,781,147

The above Statement of Cash Flows should be read in conjunction with the accompanying notes.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies

The financial report covers the consolidated entity of Empire Resources Limited and its controlled entity ("Group") and Empire as an individual parent entity ("Empire"). Empire is a listed public company limited by shares, incorporated and domiciled in Australia.

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial report. The accounting policies have been consistently applied by the controlled entity and are consistent with those in the June 2011 financial report.

(a) Basis of Preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. It is prepared on the basis of historical costs. The financial report is presented in Australian dollars.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the consolidated financial report, comprising the financial statements and notes thereto, complies with the International Financial Reporting Standards (IFRS).

The financial report was authorised for issue by the Board on 8 September 2012.

(b) Going Concern

As disclosed in the Statement of Comprehensive Income, the Group recorded operating losses of \$3,027,693 (2011: \$1,907,860) and as disclosed in the Statement of Cash Flows, the Group recorded cash outflows from operating activities of \$536,774 (2011: \$641,939), investing activities of \$2,143,573 (2011: \$963,363) and a cash inflow from financing activities of \$1,540,007 (2011: \$2,790,775). Cash flows from financing activities arose from capital raisings that are disclosed in Note 11(a). After consideration of these financial conditions, the Directors have assessed the following matters in relation to the adoption of the going concern basis of accounting by the Group:

- The Group has successfully completed capital raisings during the year as disclosed in Note 11(a) and has the ability to continue doing so on a timely basis, pursuant to the Corporations Act 2001, as is budgeted to occur in the twelve month period from the date of this financial report;
- The Group has net current assets of \$597,132 (2011: \$1,794,151) at balance date and expenditure commitments for the next 12 months of \$403,921 (2011: \$344,299), as disclosed in Note 14 (ii), and retains the ability to scale down its operations to conserve cash, in the event that the capital raisings are delayed or partial; and
- The Company and Group have the ability, if required, to undertake mergers, acquisitions or restructuring activity or to wholly or in part, dispose of interests in mineral exploration and development assets.

Due to the above matters, the Directors believe that it is reasonably foreseeable that the Company and Group will continue as a going concern and that it is appropriate that this basis of accounting be adopted in the preparation of the financial statements.

(c) Basis of Consolidation

A controlled entity is any entity that Empire Resources Limited has the power to control the financial and operating policies of the entity so as to obtain benefits from its activities.

Details of the controlled entity are contained in Note 8 to the financial statements. The controlled entity has a June financial year end.

All inter-company balances and transactions between entities in the consolidated Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Where a controlled entity enters or leaves the consolidated Group during the year, their operating results are included/excluded from the date control was obtained or until the date control ceased.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies (continued)

Business Combinations

Business combinations occur where control over another business is obtained and results in the consolidation of its assets and liabilities. All business combinations, including those involving entities under common control, are accounted for by applying the purchase method. The purchase method requires an acquirer of the business to be identified and for the cost of the acquisition and fair values of identifiable assets, liabilities and contingent liabilities to be determined as at acquisition date, being the date that control is obtained. Cost is determined as the aggregate of fair values of assets given, equity issued and liabilities assumed in exchange for control together with costs directly attributable to the business combination. Any deferred consideration payable is discounted to present value using the entity's incremental borrowing rate.

(d) Investment in associated entities

The Group's investment in its associate is accounted for using the equity method of accounting in the consolidated financial statements, after initially being recognised at cost. The associate is an entity in which the Group has significant influence and which is neither a subsidiary nor a joint venture.

Under the equity method, the investment in the associate is carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortised. After application of the equity method, the Group determines whether it is necessary to recognise any additional impairment loss with respect to the Group's net investment in the associate. Goodwill included in the carrying amount of the investment in associate is not tested separately, rather the entire carrying amount of the investment is tested for impairment as a single asset. If an impairment is recognised, the amount is not allocated to the goodwill of the associate.

The consolidated statement of comprehensive income reflects the Group's share of the results of operations of the associate, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends receivable from associates are recognised in comprehensive income as a component of other income.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivable and loans, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

The balance dates of the associate and the Group are identical and the associate's accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

(e) Plant and Equipment

Plant and equipment is measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant & equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from those assets. Recoverable amount is assessed on the basis of the expected net cash flows which will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Depreciation is calculated on the straight line basis and is brought to account over the estimated useful lives of all plant and equipment from the time the asset is held ready for use. The depreciation rates used are:

Office furniture	15-33%
Office computer equipment	33%
Motor vehicles	20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance date.

An asset's carrying amount is written down immediately to its recoverable amount if the assets carrying amount is greater than its estimated recoverable amount. Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to the assets are then transferred to accumulated losses.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies (continued)

(f) Income Tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary difference and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

(g) Cash & Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the Statement of Financial Position.

(h) Acquisition of Assets

The purchase method of accounting is used for all acquisitions of assets regardless of whether shares or other assets are acquired. Cost is determined as the fair value of the assets given up at the date of the acquisition

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies (continued)

plus costs incidental to the acquisition. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

(i) Impairment of assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Comprehensive Income.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(j) Financial Instruments

Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

Available-for-sale financial assets

Available for sale financial assets include any financial assets not classified as loans and receivables, held to maturity investments or fair value through profit or loss. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken directly to equity.

Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

At each reporting date, the Company assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

(k) Exploration and Development Expenditure

Exploration, evaluation and acquisition costs are expensed in the year they are incurred. Development costs are capitalised. Amortisation is not charged on costs carried forward in respect of areas of interest in the development phase until production.

(l) Employee Entitlements

Salaries, wages and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within twelve months of the reporting date are recognised in other creditors in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies (continued)

Equity settled transactions

The Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

There are currently two plans in place to provide these benefits:

- the Employee Share Option Plan (ESOP), which provides benefits to directors and senior executives; and
- the Employee Share Loan Plan (ESLP), which provides benefits to all employees, excluding senior executives and directors.

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a Black Scholes model, further details of which are given in Note 18. In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Empire Resources Limited (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each balance date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The profit or loss charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share (see Note 5).

The Group expenses equity-settled share-based payments such as share and option issues after ascribing a fair value to the shares and/or options issued. The fair value of option and share plan issues of option and share plan shares are recognised as an expense together with a corresponding increase in the share based payments reserve or the share option reserve in equity over the vesting period. The proceeds received net of any directly attributable transaction costs are credited to share capital when options are exercised.

The value of shares issued to employees financed by way of a non recourse loan under the employee Share Plan is recognised with a corresponding increase in equity when the company receives funds from either the employees repaying the loan or upon the loan termination, pursuant to the rules of the share plan. All shares issued under the plan with non recourse loans are considered, for accounting purposes, to be options.

(m) Trade and other receivables

All trade receivables are recognised at the amounts receivable as they are due for settlement no more than 30 days from the date of recognition.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. An allowance for doubtful debts is raised where some doubt as to collection exists.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies (continued)

(n) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial period and which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(o) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(p) Leases

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased non-current assets, and operating leases under which the lessor effectively retains substantially all such risks and benefits

Operating lease payments are charged as expenses in the periods in which they are incurred, as this represents the pattern of benefits derived from the leased assets.

(q) Revenue Recognition

Amounts disclosed as revenue are net of duties and taxes paid. Revenue is recognised as follows:

(i) Interest

Interest earned is recognised as and when it is receivable, including interest which is accrued and is readily convertible to cash within two working days. Accrued interest is recorded as part of other debtors.

(ii) Sundry income

Sundry income is recognised as and when it is receivable. Income receivable, but not received at balance date, is recorded as part of other debtors.

(r) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST.

(s) Critical accounting estimates and judgements

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

Key Estimates — Impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using the Black and Scholes model, using the assumptions detailed in Note 18.

The Group measures the cost of cash-settled share-based payments at fair value at the grant date using the Black and Scholes formula taking into account the terms and conditions upon which the instruments were granted, as discussed in Note 18.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

1. Statement of Significant Accounting Policies (continued)

This fair value is expensed over the period until vesting with recognition of a corresponding liability. The liability is re-measured to fair value at each balance date up to and including the settlement date with changes in fair value recognised in profit or loss.

(t) Adoption of new and revised standards

Changes in accounting policies on initial application of Accounting Standards

In the year ended 30 June 2012, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current annual reporting period.

It has been determined by the Group that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies.

The Group has also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2012. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change necessary to Group accounting policies.

(u) Segment Reporting

Operating segments are now reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Empire Resources Ltd.

The Group operates only in one business and geographical segment being predominantly in the area of mineral exploration in Western Australia. The Group considers its business operations in mineral exploration to be its primary reporting function.

(v) Earnings per share

Basic earnings per share is calculated as net profit or loss attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit or loss attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(w) Parent Entity Financial Information

The financial information for the parent entity, Empire Resources Limited disclosed in Note 22 has been prepared on the same basis as the Group.

2. Revenue

	Consolidated	
	2012 \$	2011 \$
Revenue		
Interest received	72,799	68,766
Sale of tenement	-	454,545

Notes to the Financial Statements 30 June 2012

11. Issued capital

(a) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares.

On a show of hands every holder of ordinary shares present at a meeting, in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

	Consolidated	
	2012 \$	2011 \$

12. Reserves

	Consolidated	
	2012 \$	2011 \$
Reserves	931,481	847,444

Reserves comprise the following:

Options reserve

Balance as at start of financial year	847,444	739,174
Share-based payment	84,037	108,270
Balance as at end of the financial year	931,481	847,444

Details of certain components of the option reserve arising as a consequence of equity based payments are included in Note 18.

13. Financial risk management

The Group's financial situation is not complex. Its activities may expose it to a variety of financial risks in the future: market risk (including currency risk and fair value interest rate risk), credit risk, liquidity risk and cash flow interest rate risk. At that stage the Group's overall risk management program will focus on the unpredictability of the financial markets and seek to minimise potential adverse effects on the financial performance of the Group.

Risk management is carried out under an approved framework covering a risk management policy and internal compliance and control by management. The Board identifies, evaluates and approves measures to address financial risks.

The Group hold the following financial instruments:

	Consolidated	
	2012 \$	2011 \$
Financial assets		
Cash and cash equivalents	640,807	1,781,147
Trade and other receivables	193,802	310,855
	834,609	2,092,002
Financial liabilities		
Trade and other payables	237,477	297,851

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

13. Financial risk management (continued)

(a) Market risk

Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from cash deposits to be applied to exploration and development of areas of interest. Deposits at variable rates expose the Group to cash flow interest rate risk. Deposits at fixed rates expose the Group to fair value interest rate risk. During 2012 and 2011, the Group's deposits at variable rates were denominated in Australian Dollars.

As at the reporting date, the Group had the following variable rate deposits and there were no interest rate swap contracts outstanding:

	%	\$	%	\$
Deposit		20,000		1,520,000
Other cash available		<u>620,807</u>		<u>261,147</u>
Net exposure to cash flow interest rate risk	4.7%	<u>640,807</u>	5.1%	<u>1,781,147</u>

The Group analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into the renewal of existing positions.

Sensitivity – Consolidated and Parent entity

During 2011, if interest rates had been 1% higher or lower than the prevailing rates realised, with all other variables held constant, there would be an immaterial change in post-tax profit for the year. Equity would not have been impacted.

(b) Credit risk

The Group has no significant concentrations of credit risk. Cash transactions are limited to high credit quality financial institutions.

Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures on outstanding receivables and committed transactions. In relation to other credit risk areas management assesses the credit quality of the customer, taking into account its financial position, past experience and other factors.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets as summarised at the beginning of this note.

(c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close-out market positions. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Group will aim at maintaining flexibility in funding by accessing appropriate committed credit lines available from different counterparties where appropriate and possible. Surplus funds when available are generally only invested in high credit quality financial institutions in highly liquid markets.

Financing arrangements

The Consolidated and Parent entity have no borrowing facilities.

Empire Resources Limited

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

13. Financial risk management (continued)

(d) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments that are not traded in an active market (for example, investments in unlisted subsidiaries) is determined using valuation techniques or cost (impaired if appropriate). The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

14. Capital and Leasing Commitments

Consolidated	
2012	2011
\$	\$

(i) Operating Lease Commitments

Non-cancellable operating leases contracted for but not capitalised in the financial statements

Payable - minimum lease payments

- not later than 12 months	55,881	53,069
- between 12 months and 5 years	-	55,881
- greater than 5 years	-	-
	55,881	108,950

The company entered into an operating lease on 1 August 2007 for office space it occupies in Victoria Park. The term of the lease is 3 years and expired on 1 August 2010. The lease was renewed for a further 3 years to 31 July 2013.

Consolidated	
2012	2011
\$	\$

(ii) Expenditure commitments contracted for:

Exploration Tenements

In order to maintain current rights of tenure to exploration tenements, the Company is required to outlay rentals and to meet the minimum expenditure requirements. These obligations are not provided for in the financial statements and are payable:

- not later than 12 months	403,921	344,299
- between 12 months and 5 years	1,615,685	1,377,196
- greater than 5 years	-	-
	2,019,606	1,721,495

These commitments are based on the Group holding the tenements for the next 5 years.

Empire Resources Limited

	\$	\$
Amounts received or due and receivable by HLB Mann Judd for:		
Audit or review of the financial reports of the Company	20,650	19,025
Amounts received or due and receivable by HLB Mann Judd audit firms:		
Other services	-	-
	<u>20,650</u>	<u>19,025</u>

18. Share Based Payments

(a) Employee share plan

The Company has established an employee share plan, which is also available to Directors, known as the 2008 Empire Resources Limited Employee Share Plan and was approved by shareholders on 28 November 2007.

The issue price for Shares offered under the Plan is at the discretion of the Board, provided that the issue price is not less than 1% below the weighted average sale price of Shares sold through ASX during the one week period up to and including the offer date.

A Director or Employee who is invited to subscribe for Shares under the Plan may also be invited to apply for a loan up to the amount payable in respect of the Shares accepted, on the following terms:

- a) Loans must be made solely to the Participant or their nominee and in the name of either the Participant or their nominee as the case may be.
- b) The principal amount outstanding under a Loan will be interest free.
- c) Any loan made available to a Participant shall be applied by the Company directly toward payment of the issue price of the Shares to be acquired under the Plan.
- d) The term of the loan shall be three (3) years from the date of issue of the Shares
- e) The Company retains a lien over each share acquired pursuant to the loan until such time as the loan is repaid.

There was 2,450,000 shares issued to Directors and employees under the Empire Resources Employee Share Plan on 8 May 2011.

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

18. Share Based Payments (continued)

(b) Option plan

The Company has established an option share plan, which is also available to directors, employees and some consultants, known as the 2010 Empire Resources Option Plan and was approved by shareholders on 25 June 2010.

The following table illustrates the number and weighted average exercise prices of and movements in share options issued during the year:

	Number	Weighted average exercise price	Number	Weighted average exercise price
	2012	2012	2011	2011
Outstanding at the beginning of the year	2,700,000	\$0.14	2,700,000	\$ 0.14
Granted during the year	3,000,000	\$0.09	-	-
Outstanding at the end of the year	5,700,000	\$0.11	2,700,000	\$0.14
Exercisable at the end of the year	-	-	-	-

A corporate goal must be met before the options may be exercised: The corporate goal that has been set is the Company's market capitalisation reaching \$10.77 million (which was the market capitalisation of the Company at 1 December 2009 plus 50%) and remaining at that level for 50 continuously traded ASX Business Days.

The fair value of the equity-settled share options is estimated as at the date of grant using the Black and Scholes model taking into account the terms and conditions upon which the options were granted.

The following table lists the inputs to the model used for the year ended 30 June 2012:

	Grant Date	Expiry date	Exercise price	Vesting Period	Fair value at grant date of options	Expected Volatility	Option life	Dividend yield	Risk-free interest rate	Grant date share price
Key Management Personnel options	25-Jun-10	25-Jun-13	\$0.14	25-Jun-13	\$0.02	107%	3 years	0%	4.57%	\$0.04
Key Management Personnel options	09-Aug-11	09-Aug-14	\$0.09	09-Aug-14	\$0.03	106%	3 years	0%	4.75%	\$0.05

Empire Resources Limited

Notes to the Financial Statements 30 June 2012

18. Share Based Payments (continued)

(c) Expenses arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

	Consolidated	
	2012	2011
	\$	\$
Shares issued under employee share plan	-	94,770
Options issued	84,037	13,500
	<u>84,037</u>	<u>108,270</u>

19. Segment Information

Operating segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker has been identified as the Board of Empire Resources Ltd.

Consistent with prior year, the Group operates only in one business and geographical segment being predominantly in the area of mining and exploration in Australia. The Group considers its business operations in mineral exploration to be its primary reporting function.

20. Contingent assets

Penny's Find

In September 2010, the Company entered into a staged sale agreement for the Penny's Find gold project with Brimstone Resources Limited (Brimstone). At the election of Brimstone, the sale consideration comprises either:

- Staged cash payments totalling \$2.0 million for a 100% interest of the Penny's Find project. A royalty will also be payable on gold produced in excess of the current JORC resource of 52,500 ozs gold.
- Staged cash payments totalling \$0.5 million together with exploration and development expenditure of up to \$3 million for an 80% interest in the Penny's Find project. Any additional development costs associated with the Company's residual 20% interest will be carried by Brimstone and repayable from the proceeds of future gold production.

An initial \$500,000 (GST inclusive) payment has been made by Brimstone during the year to earn a 40% interest in the project. Brimstone must then continue funding exploration and development work by expending up to \$3 million by 31st December 2013 to earn an 80% interest in the project. After expending \$1.5 million by December 2012, Brimstone can elect to purchase 100% of the project for \$1.5 million plus a 2% gross royalty on gold produced in excess of the current JORC resource of 52,500 ozs gold. The royalty would only apply when the gold price is above A\$700/oz and would not exceed A\$50 per ounce of gold recovered.

Troy Creek

During the March 2011 quarter, the Company finalised an agreement with unlisted Sydney based company, Zodiac Resources Ltd, whereby Zodiac may earn a 55% interest by spending \$3 million on exploration within three years and earn a 75% interest by spending an additional \$4 million on exploration and development within 5 years. Zodiac will have the option to acquire a 100% interest in the Troy Creek project within five years of commencement of the joint venture for a purchase price of \$5 million – this amount being separate to the joint venture commitments.

DIRECTORS' DECLARATION

1. In the directors' opinion:

- (a) the financial statements and notes set out on pages 10 to 39 are in accordance with the Corporations Act 2001 including:
 - (i) complying with Australian Accounting Standards (including the Australian Accounting Interpretations), the Corporations Regulations 2001, professional reporting requirements and other mandatory requirements; and
 - (ii) giving a true and fair view of the Group's financial position as at 30 June 2012 and of its performance for the financial year ended on that date; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- (c) the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

2. The directors have been given the declarations by the Chief Executive Officer and the Chief Financial Officer required by section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2012.

This declaration is made in accordance with a resolution of the directors.

David Sargeant

INDEPENDENT AUDITOR'S REPORT

To the members of Empire Resources Limited

Report on the Financial Report

We have audited the accompanying financial report of Empire Resources Limited ("the company"), which comprises the consolidated statement of financial position as at 30 June 2012, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration for the consolidated entity. The consolidated entity comprises the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In Note 1(a), the directors also state, in accordance with Accounting Standard AASB 101: *Presentation of Financial Statements*, that the consolidated financial report complies with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Matters relating to the electronic presentation of the audited financial report and remuneration report

This auditor's report relates to the financial report and remuneration report of Empire Resources Limited for the financial year ended 30 June 2012 published in the annual report and included on the company's website. The company's directors are responsible for the integrity of the company's website. We have not been engaged to report on the integrity of this website. The auditor's report refers only to the financial report and remuneration report. It does not provide an opinion on any other information which may have been hyperlinked to/from the financial report and remuneration report. If users of the financial report and remuneration report are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the audited financial report and remuneration report to confirm the information contained in this website version of the financial report and remuneration report.

Auditor's opinion

In our opinion:

- (a) the financial report of Empire Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2012 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(a).

Report on the Remuneration Report

We have audited the remuneration report included in the directors' report for the year ended 30 June 2012. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion the remuneration report of Empire Resources Limited for the year ended 30 June 2012 complies with section 300A of the *Corporations Act 2001*.
